Mudbanks; water level recession; tidal deceleration; seagrass; water trapping; Florida Bay; *Thalassia*, 43
Mud flats; precipitation; evapotranspiration; inundation water salinity; The Netherlands; salinity variations; sediment; salt marshes, 87
Multiple discriminant analysis; Brazilian south coast; benthic ecology; mollusc associations; community ecology; soft-bottom community; sediment disturbance; diversity, 71
N_2/N_2O ratios; Louisiana; denitrification; sediment gas entrapment; nitrogen stable isotopes; saltmarsh, 161
Narragansett bay; gravitational circulation; tidal flushing; tidal estuaries; flushing time; residence time, 99
Nematodes; ecology; diversity; carbonate sediments; continental shelf; Great Barrier Reef (Australia), 421
Nephtys hombergii; reproduction; oocytes; larvae; recruitment; Arcachon Bay; French coast, 1
Netherlands; salinity variations; sediment; salt marshes; mud flats; precipitation; evapotranspiration; inundation water salinity, 87
New Jersey; vigilance; intertidal; feeding; birds; horseshoe crab; laughing gull, 207
Nieuwenhuize, J., *see* De Leeuw, J., 87
Nitrogen stable isotopes; saltmarsh; N_2/N_2O ratios; Louisiana; denitrification; sediment gas entrapment, 161
North Carolina; laboratory; predation; blue crab; ribbed mussel clump, 61

North Carolina coast; phytoplankton; primary productivity; estuaries; mixing; light; U.S.A. East Coast, 609
North Sea; trace metals; suspended sediment; composition; estuaries; variability, 325
Nursery area; migration; Cadiz Bay; Spain; ichthyoplankton; shallow-inlet habitat, 347
Nutrients; brackish-waters; tidal cycles; tidal creek; monitoring; automatic techniques; Chesapeake Bay; marshes, 527
Nutrients; estuary; Western Australia; macroalgae; sediments, 281
Nutrients; seagrasses; fertilization; Florida Keys; birds, 567
